

PILLOWCASE DIRECTIONS: (Hot Dog method) Materials -

- 27" by length of material (44-45") for each pillowcase
- 12" by length of material (44-45") for header of pillowcase
- Piping (optional) 45"
- Washable materials a must!

Step 1: With right sides together sew one long edge of header to length of pillowcase. If piping is desired, insert it between the two pieces.

Step 2: Spread pillowcase out flat and roll top of pillowcase lightly towards the bottom of the header. This forms the hot dog.

Step 3: Wrap the header around the "hot dog" to form the "bun", matching the cut edge to the previously sewn edge, right sides together. (The Wrong side of the header will be on the outside.) Re-sew the seam through all layers being careful not to catch the pillowcase ("hot dog") in this seam.

Step 4: Carefully pull the pillowcase "hot dog" out of the header "bun" from one end. You will end up with all of the seams on the inside of the header.

Step 5: Fold pillowcase in half with right sides together and raw edges even. Sew the side seam and bottom of the pillowcase. Turn right side out!
